1. Set an appointment at Neusole to choose your wedding colors.

You can choose as many colors as you want. Two 4 ounce colors cost \$60. Each additional color is \$20 per color.

2. We will call you when the frit arrives, and you can pick up color order or have it mailed.
3. Mix together during your ceremony. During your ceremony you will need vessels to pour to and from.
4. Make an appointment at Neusole to bring in your combined frit to make your unity piece, or you can mail it in to us.
5. Choose from a sculpture, functional vessel, special order, or sign up for a workshop to make your own. There is enough frit to create more than one project.
6. At the time we make your piece, you are welcome to watch.
7. Prices for final pieces range depending on the size and complexity. This cost is in addition to the cost of the frit.

Unity Glass Ceremony Colors

The "Unity Glass Ceremony" is a unique and modern twist on the more traditional unity candle or sand ceremony. In this version, couples will choose colored glass crystals, aka frit. During their ceremony, each couple pours their colors into the same container, combining them, thus representing their union.

Later, the joined frit can be brought to our glass artists, who can incorporate it into a stunning and gorgeous customizable piece of glass art that further symbolizes their union.

Glass is chemistry. Some colors may appear different depending on design.

Want gold or silver? Metal leaf can be added for market price.
