Cremains Glass Keepsake

If you or others you know have loved ones who have passed, we can make glass remembrances for those you have lost. If you bring in DNA (cremains, hair, etc.) of that loved one, we can encase them in pretty glass worry stones, pendants, paperweights, among many other things, so you can keep your loved ones with you everywhere you go!

The ashes or hair are treated with respect and care. We generally need about one teaspoon for each piece. When the ashes are mixed with the glass, they are surrounded by many small bubbles. These bubbles will contain CO₂ gas which is created by the chemical reaction between the glass and ashes.

- We will need approximately 1 teaspoon of cremains (per piece)
All unused cremains will be returned
- Lead time is approximately 2 weeks
- Custom pieces will be priced accordingly
- Cremains may be human or pet
- You may pick two colors for pendants and three colors for everything else
- More than 3 colors will be priced accordingly
- We can ship for an extra charge
- We have a collection kit that can be used
- All cremains glass must be prepaid with a minimum 50% deposit

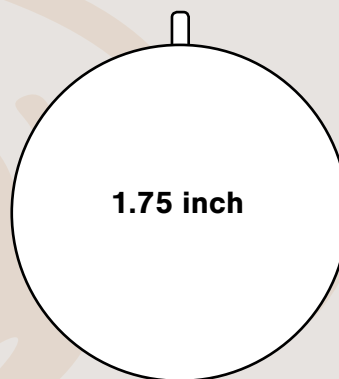

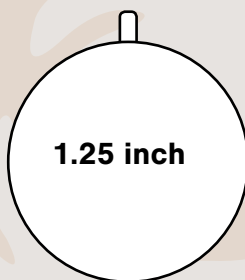

Cremains Pendants

Keep your loved one with you in a cremains necklace. Choose two colors and give us your cremains. Our artists will create a beautiful pendant to last a lifetime. Additional colors are available for an extra charge.

Pet Cremain Pendant

Your pet is a member of your family. Paw pendants can be created so your beloved pet will always be with you.

Custom designs are available.

About Us

Neusole Glassworks is a public access glass facility that is devoted to creating and promoting glass art. We are proud of the fact that we are the only hot-glass studio, capable of multiple techniques with glass, open to the public in Cincinnati. We not only create pieces for sale through our gift shop, we also offer custom glass design services and educational instruction in all of the techniques we use. In 2008, Neusole Glassworks became part of the John J. Schiff III Foundation, a 501(c)(3) not for profit private operating foundation. Neusole Glassworks offers a variety of solutions to all of your glass art needs including: blown, flame worked, and fused glass, or a combination of the three. Artists, designers and glass enthusiasts all come together to share, learn and grow as individuals and as a glass community.

Our studios provide access to the equipment needed for the creative glass medium including: equipment engineered and created by artists to promote the highest level of creativity, and are available for rental to glass artists who may not be able to afford a private studio of their own. A variety of courses are offered to teach all ages and skill levels. Whether you want to create glass art for a living, or just want to “get your hands warm” and make a small piece to see what it’s like to handle this exciting molten material Neusole Glassworks has a class for you! We offer studio tours and demonstrations to groups of any size. We have hosted groups from the Upward Bound Program at the University of Cincinnati, the art and music students from Oldenberg Academy in Indiana, Trinity School and other groups. We love what we do and we love sharing!

We also do specialty orders. We have glass window installations in several homes in the Cincinnati area. We have made custom glass pieces for customers based on their drawings, imaginations and/or memories. From production pieces to one of a kind, we craft each piece individually.

Come and enjoy our vast resources and knowledge of glass arts! Feel free to stop by and tour our facility. We specialize in glass of all sorts: blown, fused, flame worked, cast, enameled and engraved. Our company is based on the belief that our customers’ needs are of the utmost importance and the entire team is committed to meeting those needs. As a result, a high percentage of our business is from repeat customers and referrals. We would welcome the opportunity to earn your trust and deliver you the best service in the industry.
